

CAREER CAFÉ

WORKING LIFE EVENT

What kind of intern and work possibilities there are in Satakunta? How can I use my diverse background to help me in my job hunt? We invite you to hear the career stories of alumni and to network with employers from the social welfare and healthcare sector.

In the Career Café, graduates working in the social welfare and healthcare sector talk about their careers and experiences with learning Finnish while working, for example. The working life event will provide you with tips for finding a job, help with writing an application and making a CV, and the opportunity to possibly meet your future employer, since several social welfare and healthcare companies will be present at the Job Market.

Join us for some networking and entertainment in the form of music, good company, and stand-up comedian **Ali Jahangiri's** show!
